Ref: Tarns of the Central Lake District
by E. Haworth, G. de Boer, I. Evans, H. Osmaston,
W. Pennington, A. Smith, P. Storey & B. Ware, 2003
Size 244 x 172 mm, 204pp., ISBN 0 90601517 0
Published by Brathay Exploration Group Trust, Ambleside, Cumbria.
Depth charts of the 50 larger tarns (small lakes) of the Lake District
which have been standardised from surveys made by Brathay
between 1947 & 1985; set in context by what is known of the tarn and
its setting, together with a general introduction to history & geography
of the area.
£12.00

Ref: Tarns of the Fells
Tarns of the Fells: Celebrating Cumbria’s Mountain
Landscapes
Size 210 x 210 mm, 44 pp., ISBN 0 9540506 2 2
Although tarns are synonymous with the Lake District, they
occur across Cumbria and this book celebrates these areas of
open water and the diversity of life within them. Produced by a
partnership of conservation trusts (the Cumbria Wildlife Trust,
the Freshwater Biological Association and the Friends of the
Lake District), this beautifully illustrated book brings together
aspects of the origin of tarns, their natural history and their
roles in art, literature and history.
£3.10 discount not applicable

CCAP publications

CCAP-CAig. Culturing Algae – A Guide for Schools and Colleges
Packed with information on handling and maintaining micro-algae in schools and colleges,
including simple methods for preparation, growth and expressing results.
£5.00

CCAP-FGym. A New Key to Freshwater and Soil Gymnamoebae
by F.C. Page, 1968, 122pp, A4, ISBN 1 871105 02 1
A successor to F.C. Page’s 1976 key (FBA Scientific Publication No. 34), incorporating
subsequent changes in taxonomy. (See also FBA Scientific Publication 34).
£22.00

CCAP-MGym. Marine Gymnamoebae
An invaluable source book for the investigation of naked lobose amoebae in the marine
environment.
£8.00

CCAP-Cryo. An Introduction to Cryopreservation in Culture Collections
Storage under liquid nitrogen is a standard method for long-term maintenance of a large
variety of cell types and tissues. This book investigates many aspects of the freezing and
thawing processes.
£6.00

CCAP-PPro. Parasitic Protozoa in British Wild Animals
This booklet illustrates the extent of parasitic protozoa in the British wild fauna.
£5.00
Excellence in Scientific Publishing

For over 70 years the Freshwater Biological Association has published books on freshwater biology designed for the researcher, student, professional or enthusiast. Written by leading scientists and practitioners and edited by the FBA, the FBA’s range includes keys and guides to the identification of individual species, genera and families of organisms (including the definitive identification guides to much of the freshwater fauna of Britain and Ireland), as well as reference books of a more general nature.

Scientific (SP) Series: Practical guides – mostly keys to the identification of freshwater organisms, many of which also include ecological notes, but also analysis guides offering practical advice on scientific methods.

Occasional (OP) Series: Bibliographies, datasets and user manuals.

Special (SPEC) Series: Miscellaneous titles – mostly reference books, covering a wide range of freshwater topics.

We also sell a few titles from other publishers (listed here under ‘Affiliate Publications’).

Unless stated otherwise: Scientific and Occasional Publications are A5 printed booklets, bound between soft covers; Affiliate Publications (titles by other publishers) and Special Publications are various formats up to A4 in size, bound between soft covers.

Discounts

FBA Members and booksellers are entitled to a 25% discount on publications, except where stated otherwise. Why not join the FBA and take advantage of this discount and other benefits, including a free newsletter, discounts on our journal Freshwater Reviews, discounts and information on scientific meetings and courses, discounted access to a world-renowned freshwater library, and eligibility for the annual ‘Hugh Cary Gilson Memorial Award’?

How to Order

Publications may be purchased at our online shop (https://www.fba.org.uk/shop); if you are eligible for a discount and do not have a discount code, please contact the address below. For those preferring to order by post/fax, full details of how to order, including postage rates and a printable order form, can be found on the FBA web site (www.fba.org.uk/fbapub.html); credit card orders can also be placed over the phone. Booksellers are entitled to free postage for orders of £50 or more (except on online shop). Standing orders can be placed for each of our series: please contact the address below.

Affiliate Publications

Available through the FBA

Ref: Britain’s Dragonflies
Britain’s Dragonflies: A Field Guide to the Damselflies and Dragonflies of Britain and Ireland
by D. Smallshire & A. Swash, 2010, Second Edition
Size 210 x 150 mm, 208pp., ISBN 978 1 903657 29 4
Softback with plastic cover.
A comprehensive photographic guide, published by WILDGuides.

Ref: Windermere Ferry
The Windermere Ferry: History, Boats, Ferrymen and Passengers
by D. White, 2002
Size 238 x 164 mm, 110pp., ISBN 0 9540497 1 3
Published by Helm Press.
Limited stock: contact the FBA to reserve a copy, before ordering.

Note 1: Data are given for 15 lakes.

Note 2: Suitable for amateur microscopists starting to study amoebae, but professional workers may find it necessary to refer also to A New Key to Freshwater and Soil Gymnamoebae, with Instructions for Culture, by F.C. Page. Available through the FBA. See back page, reference CCAP-FGym.
### Scientific Publications (SPs)

**SP 36. Water Analysis**
Water Analysis: Some Revised Methods for Limnologists
by F.J.H. Mackereth, J. Heron & J.F. Talling
£14.00

**SP 38. Rotifers**
A Key to the Freshwater Planktonic and Semi-Planktonic Rotifera of the British Isles, by R.M. Pondin
£10.00

**SP 39. Estimating Microbial Numbers**
£10.00

**SP 40. Leeches**
A Key to the British Freshwater Leeches, with Notes on their Life Cycles and Ecology, by J.M. Elliott & K.H. Mann
£8.00

**SP 42. Desmids (See note below)**
A Key to the Commoner Desmids of the English Lake District by E.M. Lind & A.J. Brook
Out of print: facsimile reprint due June 2012
£8.00 (no discount)

**SP 44. Diatom Frustules**
A Guide to the Morphology of the Diatom Frustule, with a Key to the British Freshwater Genera, by H.G. Barber & E.Y. Haworth
Out of print: facsimile reprint due June 2012
£7.00 (discount not applicable)

**SP 45. Orthocladiinae Larvae (Chironomidae)**
A Key to the Larvae of the British Orthocladiinae (Chironomidae)
by P.S. Cranston
£10.00

**SP 46. Parasitic Copepods**
The Parasitic Copepoda and Branchiura of British Freshwater Fishes: A Handbook and Key, by G. Fryer
£10.00
(Includes a general account of the biology, life cycles and ecology)

**SP 47. Adult Mayflies (Ephemeroptera)**
A Key to the Adults of the British Ephemeroptera, with Notes Concerning Freshwater and Terrestrial Forms, 1910–1981
by R. Stokoe,
£10.00

**SP 48. Mosquitoes (Culicidae)**
Keys to the Adults, Male Hypopygia, Fourth-Instar Larvae and Pupae of the British Mosquitoes (Culicidae), with Notes on their Ecology and Medical Importance
by P.S. Cranston, C.D. Ramsdale, K.R. Snow & G.B. White
£13.00

---

**ID Identification guide**

Note: A limited number of original copies with slight cover damage are available at the same price as the facsimile reprint, £9.00 (discount not applicable). Please specify when ordering if you would prefer one of these.

### Special Publications (SPECs)

**SPEC 14. Algae of South Wales**
Size 210 x 297 mm, 388pp., ISBN 0-9520432-4-6
Published by Bioline, University of Wales, Cardiff.
Illustrations and ecological notes describing the main Phyla and Orders of Algae found in South Wales. All proceeds from the sale of the book have been donated to the FBA by the Estate of Dr Kathryn Benson-Evans.
£20.00

**SPEC 15. The World of Lakes: Lakes of the World**
by Mary J Burgess and Pat Morris, with illustrations by Guy Troughton, 2007.
The World of Lakes explains the properties of lake water, the formation of lakes, their dramatic seasonal patterns, and the communities of plants and animals that they support. The remarkable variety of the world’s lakes is then described: from the frozen lakes of Antarctica, which face perpetual cold and prolonged darkness, to the rich warm waters of equatorial Africa. Having provided a picture of lakes as dynamic but delicate habitats, the authors discuss the crucial question of conservation.
£25.00

### Occasional Publications (OPs)

**OP 1. Mites**
£5.00

**OP 8. Windermere Chemistry**
Facsimile reprint 2007
£4.00

**OP 10. Deforestation**
£7.00

**OP 16. Major Ions in Lakes**
£8.00

**OP 17. Protozoa**
£8.00

**OP 18. Aquatic Macrophytes**
£12.00

**OP 19. River Frome Fish**
£7.00
**Special Publications (SPECs)**

**SPEC 9. Microbial Diversity in Priest Pot**
Microbial Diversity in Priest Pot: a Productive Pond in the English Lake District  
by B.J. Finlay & S.C. Maberly, 2000  
Size 246 x 174 mm, 73pp., ISBN 978-0-900386-64-0  
Published in collaboration with the NERC Centre for Ecology and Hydrology.  
A summary of current knowledge and understanding of the complex interrelationships that exist between micro-organisms and the environment in Priest Pot – a small, shallow pond in the English Lake District which has been studied for 50+ years.

**SPEC 10. Phytoplankton of Windermere**
The Phytoplankton of Windermere (English Lake District)  
by C.S. Reynolds & A.E. Irish, 2000  
Size 246 x 174 mm, 73pp., ISBN 978-0-900386-65-7  
Published in collaboration with the NERC Centre for Ecology and Hydrology.  
A factual guide to almost a century’s work on the phytoplankton of Windermere.

**SPEC 11. Windermere**
Windermere: Restoring the Health of England’s Largest Lake  
by A.D. Pickering, 2001  
Size 246 x 171 mm, 126 pp., ISBN 978-0-900386-68-8  
Published on behalf of The Lake District Still Waters Partnership.  
A description of the ecology and recent post-glacial history of Windermere, the efforts made to maintain biodiversity, and what the future holds for the lake. Includes over 75 colour illustrations.

**SPEC 12. Testate Amoebae**
Guide to the Identification of Soil Protozoa – Testate Amoebae  
by K.J. Clarke, 2003  
Published in collaboration with NERC Centre for Ecology and Hydrology, Windermere.  
The guide serves as a useful introduction to FBA Scientific Publication 34 and A New Key to Freshwater and Soil Gymnamoebae, with Instructions for Culture, by F.C. Page.

**SPEC 13. Chironomid Exuviae**
A Guide to the Identification of Genera of Chironomid Pupal Exuviae Occurring in Britain and Ireland (Including Common Genera From Northern Europe) and Their Use in Monitoring Lotic and Lentic Fresh Waters  
by R.S. Wilson & L.P. Ruse, 2006  
This guide provides a series of multiple-choice keys for identifying the pupal exuviae of 145 genera and more than 100 selected species of Chironomidae.

**Scientific Publications (SPs)**

**SP 50. Adult Waterbus**
Adults of the British Aquatic Hemiptera Heteroptera: a Key with Ecological Notes  
by A.A. Savage  

**SP 52. Malacostracan Crustaceans**
British Freshwater Crustacea Malacostraca: a Key with Ecological Notes  
by T. Gledhill, D.W. Sutcliffe & W.D. Williams  

**SP 53. Caseless Caddis Larvae (Trichoptera)**
A Revised Key to the Caseless Caddis Larvae of the British Isles, with Notes on their Ecology  
by J.M. Edington & A.G. Hildrew  

**SP 55. Simuliidae**
Last-Instar Larvae and Pupae of the Simuliidae of Britain and Ireland: a Key with Brief Ecological Notes  
by J. Bass  
Facsimile reprint 2012

**SP 56. Dixidae and Thaumaleidae**
British Dixidae (Meniscus Midge) and Thaumaleidae (Trickle Midge): Keys with Ecological Notes  
by R.H.L. Disney  

**SP 57. Larval Corixidae**
Keys to the Larvae of British Corixidae  
by A.A. Savage  

**SP 58. Triclads**
A Key to the Freshwater Triclads of Britain and Ireland, with Notes on their Ecology  
by T.B. Reynoldson & J.O. Young  

**SP 59. Microturbellarians**
Keys to the Freshwater Microturbellarians of Britain and Ireland, with Notes on their Ecology  
by J.O. Young  

**SP 60. Coarse Fish Larvae**
Keys to Larvae and Juvenile Stages of Coarse Fishes from Fresh Waters in the British Isles, by A.C. Pinder  

**SP 61. Case-bearing Caddis Larvae**
Keys to the Case-Bearing Caddis Larvae of Britain and Ireland  
by I.D. Wallace, B. Wallace & the late G.N. Philipson  
**Scientific Publications (SPs)**

**SP62. Freshwater Fish**

*Keys to the Freshwater Fish of Britain and Ireland, with Notes on their Distribution and Ecology*

by P.S. Maitland

£25.00

**SP63. Bryozoans**

*A New Key to the Freshwater Bryozoans of Britain, Ireland and Continental Europe, with Notes on their Ecology*

by T.S. Wood & B. Okamura

£19.00

**SP64. Adult Male Chironomidae**

*Keys to the Adult Male Chironomidae of Britain and Ireland*

by P.H. Langton & L.C.V. Pinder

£50.00 for 2 volumes (sold as a set)

**SP65. Alderflies, Lacewings and Spongeflies**

*Freshwater Megaloptera and Neuroptera of Britain and Ireland. Keys to Adults and Larvae, and a Review of their Ecology*

by J.M. Elliott

Out of print: reprint due June 2012

£19.00

**SP66. Mayfly Larvae (Ephemeroptera)**

*Mayfly Larvae (Ephemeroptera) of Britain and Ireland. Keys and a Review of their Ecology*

by J.M. Elliott & U.H. Humpesch

2010, size 246 x 171 mm, 152pp., ISBN 978-0-900386-78-7

£27.00

---

**Special Publications (SPECs)**

**SPEC 3. Eutrophication**

*Eutrophication: Research and Application to Water Supply*

edited by D.W. Sutcliffe & J.G. Jones, 1992

Size 245 x 170 mm, 224pp., ISBN 978-0-900386-52-7

Invited papers from speakers at a specialised joint FBA and IWSA conference held in December 1991. Theory and its application to management in Belgium, Britain, Denmark, France, Germany, Switzerland and The Netherlands.

£24.00

**SPEC 5. Microbiological Quality of Water**

*The Microbiological Quality of Water*

edited by D.W. Sutcliffe, 1997

Size 245 x 170 mm, 144pp., ISBN 978-0-900386-57-2

Invited papers from speakers at a specialised conference held in London, December 1995, by the FBA and IWSA. The conference programme combined a balance between theory and its application to management.

£32.00

**SPEC 6. English Lakes: Summary and Source Book**

*Some English Lakes as Diverse and Active Ecosystems: a Factual Summary and Source Book*

compiled and edited by J.F. Talling, 1999

A concise summary of scientific studies on the lakes and tarns of the English Lake District (Cumbria), with 506 numbered references.

£12.00

**SPEC 7. Aquatic Life Cycle Strategies**

*Aquatic Life Cycle Strategies: Survival in a Variable Environment*

Published by the Marine Biological Association of the UK.

Size 240 x 163 mm, vii + 149pp., ISBN 0 903241 07 2

Invited papers from speakers at a specialised conference held at the University of Plymouth in April 1997 by the FBA, MBA and SAMS.

£20.00

**SPEC 8. Assessing the Biological Quality of Fresh Waters**

*Assessing the Biological Quality of Fresh Waters: RIVPACS and Other Techniques*

Size 250 x 170 mm, 400pp., ISBN 978-0-900386-62-6

This book presents an account of developments in predictive bioassessment systems for classifying and monitoring fresh waters, based on macroinvertebrates. It is based on an international workshop of invited scientists from 23 countries that took place in Oxford in 1997.

Softback £16.00

Hardback £40.00

---

**Colour Poster: Blue Green Algae**

An attractive and informative full colour poster, printed on glossy art paper, 51 x 66 cm (2 x 3 ft) vertical dimensions, with 12 colour photographs by Hilda Canter-Lund and brief notes by J.W.G. Lund. Posters cost £3.00 each, dispatched rolled in a cardboard tube which can accommodate up to 5 posters. Please note: discount is NOT available on posters. Postage is charged at the same rate as a single book.

**Our latest title...**

**SP67. Guide to British Freshwater Macroinvertebrates for Biotic Assessment**

by S. Pawley, M. Dobson & M. Fletcher, 2011

Size 246 x 171 mm, 80pp.

£25.00

A concise guide to the identification of macroinvertebrate families included in biotic assessment in the UK.
