The current body of knowledge paradigms used in real estate education and issues in need of further research

There are many reasons why a cookie could not be set correctly. Below are the most common reasons:

- You have cookies disabled in your browser. You need to reset your browser to accept cookies or to ask you if you want to accept cookies.
- Your browser asks you whether you want to accept cookies and you declined. To accept cookies from this site, use the Back button and accept the cookie.
- Your browser does not support cookies. Try a different browser if you suspect this.
- The date on your computer is in the past. If your computer's clock shows a date before 1 Jan 1970, the browser will automatically forget the cookie. To fix this, set the correct time and date on your computer.
- You have installed an application that monitors or blocks cookies from being set. You must disable the application while logging in or check with your system administrator.

Why Does this Site Require Cookies?

This site uses cookies to improve performance by remembering that you are logged in when you go from page to page. To provide access without cookies would require the site to create a new session for every page you visit, which slows the system down to an unacceptable level.

What Gets Stored in a Cookie?

This site stores nothing other than an automatically generated session ID in the cookie; no other information is captured.

In general, only the information that you provide, or the choices you make while visiting a web site, can be stored in a cookie. For example, the site cannot determine your email name unless you choose to type it. Allowing a website to create a cookie does not give that or any other site access to the rest of your computer, and only the site that created the cookie can read it.

'Research' is a term loosely used in everyday speech to describe a multitude of activities, such as collecting masses of information, delving into esoteric theories, and producing wonderful new products. It is important that a student or practitioner embarking on a programme of academic or practical research has a clear idea of what the word 'research' really means, and clears away any misconceptions which might exist owing to its common use in other elds. 12 your research project. of facts are based on previous knowledge, which, in turn, is expanded by the advances. Surface pigments in real environments were used, with long exposure periods, using alpha rhythms recorded on EEG and EKG recordings to assess the level of arousal. The Current Body of Knowledge Paradigms Used in Real Estate Education and Issues in Need of Further Research. Author: Donald R. Epley. Start Page: 229 End Page: 236 Volume: 12 Issue Number: 2 Year: 1996 Publication: Journal of Real Estate Research. Abstract: The ARES Body of Knowledge Committee surveyed its members in order to uncover the current state of the art in the practice of the body of knowledge (BOK) and skills that generated a series of conclusions and recommendations. The BOK needs continual research and discussion before it can evolve into a final paradigm that is acceptable to all users.
