Abstract
The nature of my project is creative; I wrote a paranormal fantasy novel, centered on a girl and the wild world of tigers, that contributes to the large pool of book options available to those who seek to entertain themselves by reading. As an endangered species, tigers are powerful, curious creatures that demand extensive research to be fully understood, but they also need raised awareness so that they might be saved from extinction. The plot of the book includes focuses on a girl who transforms into a tiger and moves to live among the wild tigers of India. It expresses themes of fear, acceptance, authority, and love among a diverse cast of characters. My book is available in paperback, indie published under my own imprint publishing company, Fire Feather Press. This required me to format and design the cover and interior of my novel in an enticing, yet professional way in order to compete with the many other novels out there. With the writing of my book, I planned to entertain my readers with a fantasy adventure tale by bringing them face-to-face with tigers in the wild world, while also serving to raise awareness in order to help tigers prosper once more.

Lyrics to "Tribute" song by Tenacious D: This is the greatest and best song in the world. Tribute. Long time ago me and my brother Kyle here... And we played the first thing that came to our heads. Just so happened to be The best song in the world. It was the best song in the world. Look into my eyes and it's easy to see One and one make two, two and one make three, It was destiny. Once every hundred-thousand years or so, When the sun doth shine and the moon doth glow, And the grass doth grow. Needless to say, the beast was stunned. A whip-crack went his whippy tail, And the beast was done. He asked us, "Be you angels?" And we said, "Nay. We are but men." Rock! This is not the greatest song in the world, no. T "For the first time after decades of constant decline, tiger numbers are on the rise. This offers us great hope and shows that we can save species and their habitats when governments, local communities and conservationists work together," said Marco Lambertini, Director General of WWF International. via WWF. The rise in numbers is likely owed to improved surveys and enhanced protection programs, especially in countries such as India, Russia, Nepal and Bhutan. "This is a critical meeting taking place at the halfway point in the Tx2 goal," said Dr Rajesh Gopal, Secretary General, Global Tiger Forum. "Tiger governments will decide the next steps towards achieving this goal and ensuring wild tigers have a place in Asia’s future."

It is one of, if not the most recognizable song by Tenacious D. In an interview with JimmyO, Kyle and Jack said that the inspiration from the song came after Jack played Metallica’s “One” for Kyle. Jack: “I turned it on… turned Kyle onto it and I said, “I think they’re the best band in the world. Metallica. And I think this song is the best song in the world.”
