Speaking Books
All about Setting up Community Health Programmes: A Practical Manual for Use in Developing Countries by Ted Lankester. LibraryThing is a cataloging and social networking site for booklovers. This detailed, simply written how-to manual covers all the basic principles of community based health care, setting up specific programs, and managing them, while reflecting post-millennium realities. Topics covered include: Health Awareness and Motivation, Learning about the Community, Setting up a Community Health Clinic, Setting up Community Programs for TB, Maternal Health, and Family Planning, A Community Development Approach to HIV/AIDS, Setting up Environmental Health Improvements, Managing Personnel and Finance.
