April 18th is a date engraved in our hearts. It is also engraved in stone. Just hours after hearing our baby’s strong heart, the nurse searched to hear it again. Another nurse tried, moving to every position. Then they placed a scalp lead. Nothing. The doctor arrived. More searching. Solemn faces announced the news before words were spoken. No heartbeat.
The Great Sign of the Gathering of Israel

By Jeffrey Marsh

March 26th, 2030, is not only the 200th anniversary of the publishing of the Book of Mormon, it is also the date of the fulfillment of one of the most important prophecies in world history. Both Enoch and the Savior foresaw this event, and declared it to be the sign of the beginning of the Lord's work, to get the world ready for the Second Coming.

Why Do Some Husbands and Wives Cheat and Betray Their Covenants?

By Jonathan Decker

Few things are more devastating than learning that a partner's been unfaithful. You commit yourself, your life, your time, your energy, and your heart to someone, and they betray all of it. Does your spouse legitimately care about you? How did this happen? Can you trust that they'll never do this again? Let's break these questions down.

Come, Follow Me for Individuals and Families: Matthew 18; Luke 10

By Saydi Eyre Shumway

The questions to ask God are not so much how we can teach our children the principles in the lesson for the week. Instead we are trying to ask God to help us know how to use the scripture passages for the week to make progress against the challenges in our lives and in our family. How can we use these principles to help our ten-year-old manage her rage? How can these stories help our teenage son be more aware of those around him? How can Christ's words here help me to develop more patience?

Come, Follow Me for Sunday School: One of the Overlooked Beauties of Easter
Diana Webb

The start of my addiction treatment for recovery was a 3 week stay in a psychiatric ward. I was still in denial and didn’t have a clue how much trouble I was in. If you are an addict or alcoholic in active addiction, please do yourself a favour and book yourself in for treatment. It can be the life-changing event you need to save your life. I am sure every addict is scared of treatment but it can be a wonderful experience. I am glad you have bounced back from your addiction. Everyone deserves a second chance and I am sure there are many addicts out there whom are still seeking help out there. Best wishes to you. This is a common tool in addiction recovery, and can be very helpful in preventing further problems. On a basic level it is a post mortem after a relapse event. It consists of thinking back and examining the situation you were in just before your relapse. You ask things like: What was my emotional state? Was I bored? Stressed? Frustrated? Lonely? What was it that triggered me? But it was the music in recovery program that kept me engaged. I became an accountable, active member of a community. The overall effect of teamwork, from the sound engineers to production assistants and beyond, helped me become a part of the community—this galvanized my recovery in ways I never thought possible. Ours was a highly-active program, which provided music for religious services twice a week, music-based process groups, songwriting sessions, recording and engineering workshops, as well as instrumental and vocal instruction.
