New to this chapter in the Eighth Edition are e-resources that can be offered as alternatives to print resources. While the e-resources may not be as comprehensive as the print resources, they can provide some good information in the event that access to print resources is not possible. All of the print resources listed are appropriate for a basic library reference collection or circulating collection and most are appropriate for home libraries. From cocktails to cockatiels, this chapter supports a wide variety of reader interests.

Household definition: A household is all the people in a family or group who live together in a house. | Meaning, pronunciation, translations and examples. A household is all the people in a family or group who live together in a house. ... growing up in a male-only household. Many poor households are experiencing real hardship. Synonyms: family, home, house, ménage More Synonyms of household. 2. singular noun [oft NOUN noun]. The household is your home and everything that is connected with looking after it. A household consists of one (or more) people who live in the same dwelling and share meals. It may also consist of a single family or another group of people. A dwelling is considered to contain multiple households if meals or living spaces are not shared. The household is the basic unit of analysis in many social, microeconomic and government models, and is important to economics and inheritance. Disaggregation of household results by sources of income and expenditure patterns permits a fairly detailed analysis of likely changes in poverty. From Cambridge English Corpus. This article therefore identifies the need for further research, qualitative and quantitative, on the relationship between women's employment patterns and the dynamics of household formation.
