Immigration, Refugees and Forced Migration: Law, Policy and Practice in Australia

Crock, M · Berg, LA

ABSTRACT:
This book provides a comprehensive analysis of immigration law in Australia and of the political, social and cultural forces that have shaped and are shaping it. It explains the momentous changes that have occurred in law and policy since the first attempts, in December 1989, to codify decision-making through detailed regulations. It is a study of revolution and counter-revolution: of the impact that the courts and tribunals have had on law and policy through the review of migration decisions; and of the increasingly extreme steps taken by government to assert control over every aspect of its immigration program.

This book provides a comprehensive analysis of immigration law in Australia and of the political, social and cultural forces that have shaped and are shaping it. It explains the momentous changes that have occurred in law and policy since the first attempts, in December 1989, to 'codify' decision-making through detailed regulations. It is a study of revolution and counter-revolution: of the impact that the courts and tribunals have had on law and policy through the review of migration decisions; and, of the increasingly extreme steps taken by government to assert control over every aspect of immigration—often of waves of refugees in particular—is nothing new. Historians recall campaigns against Jewish immigrants in Britain in the 1880s, and the U.S. Nativist movement of the 1920s, which opposed entry of all people not of British or Western European descent. Second, policy makers are attempting to implement differentiated policies for various categories of migrants. Specifically, there is global competition to attract highly skilled migrants, but refugees, unskilled migrants, and their families are unwelcome. Third, there is growing understanding that migration—both economic and forced—is an integral part of processes of global and regional economic integration. Find many great new & used options and get the best deals for Immigration, Refugees and Forced Migration: Law, Policy and Practice in Australia by Laurie Berg, Mary E.
