The sociology of education and work

The sociology of education contains a number of theories. The work of each theory is presented below. Structural Functionalism. Structural functionalists believe that society leans towards equilibrium and social order. They see society like a human body, in which institutions such as education are like important organs that keep the society/body healthy and well Bessant, J. and Watts, R. (2002) “Sociology Australia” (2nd ed), Allen & Unwin, Sydney]. Education, sociology of — Education is a philosophical as well as a sociological concept, denoting ideologies, curricula, and pedagogical techniques of the inculcation and management of knowledge and the social reproduction of personalities and cultures. In practice, the … Dictionary of sociology. The sociology of education is the study of how public institutions and individual experiences affect education. The sociology of education is most concerned with public schooling in industrial, or first world countries. It focuses on the expansion of higher, further, and adult education.¹. James Coleman did a classic example of a sociology of education study in 1966 known as the "Coleman Report".
