Maritime zones in the Southern Ocean - Science Direct
January 12; see Document 313. Antarctica In International Law (Documents In Annex 11, 2010). Maritime zones in the Southern Ocean - Science Direct
This edited collection of Basic Documents is the most authoritative selection of essential international law materials. Now in its fourth edition, this hugely popular textbook has been thoroughly updated and revised to incorporate all relevant developments. As with previous editions, the aim is to provide the student and practitioner with a carefully edited selection of key basic documents, and this new edition will continue to be the first point of reference for all those interested in International Law. Excerpt. The model of the first edition has been adhered to, and thus the object has been A concise account of international law by an experienced practitioner, this book explains how states and international organisations, especially the United Nations, make and use international law. The nature of international law and its fundamental concepts and principles are described. The difference and relationship between various areas of international law which are often misunderstood (such as diplomatic and state immunity, and human rights and international humanitarian law) are clearly explained. The essence of new specialist areas of international law relating to the environment, human
