Abstract
Howard Bahr is already well-known to readers as the author of the acclaimed novel The Black Flower, a powerful and elegantly written book that captured the essential detail and wrenching violence of men in battle as have few other works of fiction about the Civil War or any other war. Now he ...

Reconstruction changed the economy of the South. White land-owners broke up their big farms into smaller pieces of land. They rented these to black farmers. The reconstruction period changed the face of the South and of the United States. The events of reconstruction also were central to one of the nation's most interesting presidential elections. That will be our story next week. The Star Wars galaxy is changing. The scars of the Clone Wars are not healing, and crime syndicates are taking advantage of vulnerable communities. Priceless Jedi artifacts and dark Imperial secrets are coming to the surface. The Galactic Civil War has spread far beyond the Core Worlds and the Empire is tightening its grip on planets it long neglected. Chronicles of the Gatekeeper lets you hold mysteries of the past and visions of the future right in the palm of your hands. It offers you the chance to play a key role in these dramatic changes. The adventure is soon to begin. Pre-order Chronicl...
