Would like to correspond with anyone about this family who resided Georgetown, Maine mid-1700s to mid-1800s.

Hi i have tried to contact you via another e-mail source, but was unsuccessful. John Couillard is my ancestor. I will await an e-mail in order that I can discuss further. Many thanks Mrs k.c drury-crockett

Could anyone shed some light on the wife and children of this John Couillard of Georgetown, Maine?

I am researching a Mary Couillard/Collier/Colyer who married Joseph Wooster HINKLEY on 3 October 1796 probably in or near Georgetown, Maine. Mary was born ca. 1764-1776, probably in the Georgetown/ Bath area of Maine.
They had several children (all born in Lisbon, Androscoggin (Lincoln) Co., Maine:
John Collier [sp] HINKLEY
Jane HINKLEY
Jesse Worley HINKLEY (Our line)
Rachel Miller HINKLEY
Samuel W. HINKLEY
Betsey Blaisdell HINKLEY

Was Mary Couillard/Collier the daughter of John Couillard?

I have also found in the source titled:
SOURCE: "1400 Historical Dates of the Town and City of Bath, and Town of Georgetown, from 1604-1874" (Image #10, ancestry.com)
Chapter: "Important Events in the History of Bath", section "Prominent Men of Bath", pg. 10. (Event was between 1787 - 1780)

"17__, John Couillard came to Bath under peculiar circumstances; he belonged to a French Man of War, which, in a battle with an English ship, got its yards entangled with those of the enemy; Couillard went aloft to clear the rigging, the ship rolled, and he found himself a prisoner on board the English ship. It was a drawn game."

Could this John Couillard be the father of our Mary Couillard/Collier HINKLEY? I am just beginning research on this name.

Can anyone direct me to sources for further research? Is there a printed genealogy on this Maine family?

First, my database of Couillard family members is close to 3500 persons. I have been researching this family for over 30 years.

I have determined after reviewing my Couillard data that there were two Mary Couillard’s that we need to discuss.

First, there was Mary, d/o John and Isabellah (Colwell) Couillard, born 29 December 1726 at Gloucester, Essex County, MA. She later married John Briant, c1744, at Georgetown, Maine.

Secondly, there was Mercey or Marey, d/o Charles and Margaret (Hood) Couillard, born 7 February 1761 at Georgetown, Maine. Charles was a son of John and Isabellah. Mercey or Marey married Joshua Shaw c 1779 at Georgetown, Maine. Their last known child, Joshua, was born 18 October 1798 at Bath, Maine.

Lastly, there is a remote possibility that your Mary could be the missing and tenth child of John and Mary (Mock) Couillard. He being another son of John and Isabellah. Nevertheless, as this family tended to name their children after known grandparents, etc., we must note that John and Mary had no known child named John. That being said, there is an unexplained John Couillard who served as a "drummer" during the Revolutionary War and several Couillard researchers maintain that he is the missing tenth child. If so, he had to have died early or left home for another area.

I would also point out that John and Mary Couillard’s family settled in the Bucksport and Frankfort areas, with no ties that we can find to Georgetown or Bath after the Revolutionary War. By 1790, this John had died leaving no will or probated estate. So we have had to develop his family using other genealogical methods.

So...not sure which family into which your Mary fits but I have no evidence that she fits in the John and Isabellah Couillard family of Georgetown, Maine.

Thank you kindly for your very detailed and clearly written summary of the Couillards of Maine that you have researched. I am disappointed that my research may need to be directed away from your family at this time. You have done a wonderful and thorough job with sources and conclusions. I am grateful for your advice.

I am a descendant of John Couillard and Isabellah Colwell and I am seeking information that will take me back to the generations before them. Would appreciate any information you could share.

The Family tree allows the player to see the relationship connections between Sims. It can be accessed through the relationship panel. The trees show solid lines between married couples and their children. Unmarried couples who have children together are shown by a solid link to the child only. The portraits of children born via alien abduction[TS2] are connected to their father and the Pollination Technician, but their parents' portraits remain separate. The portraits of deceased Sims are grayed-out.
