- Film criticism. (source)lcsh
- Motion pictures History. (source)lcsh
Film criticism is the analysis and evaluation of films and the film medium. The concept is often used interchangeably with that of film reviews. A film review implies a recommendation aimed at consumers, however not all film criticism takes the form of reviews. In general, film criticism can be divided into two categories: journalistic criticism which appears regularly in newspapers, magazines and other popular mass-media outlets; and academic criticism by film scholars who are informed by film theory.
