Disaster Management: A Disaster Manager's Handbook
Carter, W. Nick | December 2008

Abstract
This handbook is a ready reference guide for those actively involved with management of natural disasters before, during, and after disaster situations in developing member countries. It draws upon disaster management practices in Asia and the Pacific and endeavors to relate realistically to the needs of national disaster managers.

CAREC Transport and Trade Facilitation Strategy 2020

The Central Asia Regional Economic Cooperation (CAREC) Transport and Trade Facilitation Strategy (TTFS) was refined to account for changes in the CAREC Program since 2008, particularly expanded membership and the new strategic framework (CAREC 2020)....
Disaster management: an overview. Rajneesh Kumar Sharma. * and Manish Khanna. In disaster management the term "program" describes a set of activities carried out by an organization within a specified time, to accomplish predetermined objectives. A program may be made up of two or more sub-units of activities generally called projects. In a pre-disaster environment programs are usually long-term and have a small, full-time, professional staff.

Effectiveness
In May 2003, ADB approved a new accountability mechanism to replace the previous Inspection Function. The mechanism was established to provide better access for people adversely affected by ADB-assisted projects to voice and seek solutions to their...

Managing Reforms for Development: Political Economy of Reforms and Policy-Based Lending Case Studies
Abonyi, George; Bernardo, Romeo; Bolt, Richard; Duncan, Ronald; Tang, Christine (Asian Development Bank, 2013-01-01)
The book's intended readers are development practitioners involved in the policy reform process. It aims to help them understand political economy factors that shape actual outcomes, and to simplify the complexities of policy reform. Successful reform...
