American frontier: American frontier, in United States history, the advancing border that marked those lands that had been settled by Europeans. It is characterized by the westward movement of European settlers from the original Atlantic coast in the early 17th century to the Far West in the late 19th century. Well before the American Revolution they had brought a new west into being; in upper New England, in the Mohawk River valley, in the great valley of Pennsylvania and above the fall line and out into the ridges and valleys of the south. American frontier; Northwest TerritoryMap of the Great Lakes region in 1816 by John Eddy. Library of Congress, Map Division. Characteristics of the first frontiers.
