The Transformation Of San Francisco

Chester W Hartman

James Brook, Chris Carlsson, and Nancy J. Peters (see also their related CD-ROM, Shaping San Francisco: A Multimedia Excavation of the Lost History of San Francisco, 2d ed.), along with my 1984 The Transformation of San Francisco, stand out as the few examples. Thus, when that book went out of print several years ago, I could not resist the temptation to update and reissue it. That I no longer live in San Francisco (although I still own a home there) turned out to be both an advantage and a disadvantage. The downside is obvious. The Treaty of San Francisco (サンフランシスコ講和, San-Furanshisuko kōwa, Peace Treaty with Japan (平和条約, Nihon-koku to no Heiwa-Jōyaku) or commonly known as the Treaty of Peace with Japan, Peace Treaty of San Francisco, or San Francisco Peace Treaty), mostly between Japan and the Allied Powers, was officially signed by 49 nations on September 8, 1951, in San Francisco, California. It came into force on April 28, 1952 and officially ended the American-led Allied Occupation of Japan.
