Furthermore, positive and negative humor styles relate differently to correlates of SWB such as self-esteem, and anxiety. Specifically, affiliative and self-enhancing humor styles positively correlate with trait self-esteem, whereas aggressive and self-defeating humor styles negatively relate to trait self-esteem and judgments of self-competence (Galloway 2010; Kuiper et al. 2004; Liu 2012; Martin et al. 2003; Zeigler-Hill and Besser 2011). Humor blogs best list. Keep up with humour blog, humour websites, amusing websites, humorous websites and more.
