**Abstract**
In these thirty flash fictions, paths cross, people meet and part, and always there are consequences, often misremembered or misunderstood. Funny, caustic and poignant by turns, the stories remind us that we each find our own way through the muddle of life.

Flash Pack is geared toward curating unique and stylish trips for solo travelers in their late 20s through 40s (basically, any and all Millennials), and its take is pretty fresh and unique. The groups are intimate, and each trip is built for around eight to 12 like-minded solo travelers who are all interested in sharing similar experiences while traveling. It'll definitely behoove you to set aside whatever comes to mind when you currently think “group travel,” as Flash Pack does things a lot differently. This is decidedly not the ultra-touristy group tour that your grandparents opt into, nor is it a wild n’ crazy travel package full of 18-year-olds who are just looking to party hard (not that there's anything wrong with either of those experiences, if that's what you're into!). Solo travel can prove eye-opening, even life-changing, but it can also be challenging to plan and downright terrifying if it's something you've never experienced before. Flash Pack is hoping to change all that by bringing affordable, authentic, and convenient group-travel style to solo travelers. Few things will break you out of your comfort zone like solo travel to some far-flung country that you can hardly pronounce. Traveling by yourself can prove eye-opening, even life-changing, but it can also be challenging to plan and downright terrifying, especially if it's something you've never experienced before. Flash Pack is hoping to change all that by bringing affordable, authentic, and convenient group-travel style to solo travelers. Solo travel can be a daunting experience – but Rough Guides authors and editors have plenty of tips for travelling alone and how to get the most from it. Travelling alone can seem daunting from the comfort of home. What happens if you get stranded somewhere? Can you go out at night solo? Won't it feel weird to eat in a restaurant alone? All these worries and more (Will I get attacked by bandits? Or my car stuck in a ditch?) plague most travellers before their first solo travel trip, but quickly evaporate, outweighed by the innumerable benefits. Here, our authors and editors offer their top tips on how to travel alone successfully. 1. Know your strengths.
