If you're not a professional researcher or a librarian, you may appreciate a brief explanation of exactly what we sell here at proceedings.com. First, let's answer the question, "What are conference proceedings"? Conference proceedings are a collection of technical papers presented at a professional association meeting. These meetings are sometimes referred to as conferences, symposia, workshops, expositions, exhibitions, and the like. The papers go by a variety of names also, like: papers, abstracts, extended a Research paper publication in international conference proceedings collections. Scientific conferences are a special type of cooperation between representatives of research community in the course of which they submit their works in information packages and discuss them with colleagues. Participation in conferences of international level is a very important for each specialist’s activity, however, it’s quite a task since one needs to prepare a number of materials and observe many submission guidelines. If you wish your research works take part in one or another scientific conference, our compa
